Subject: FW: Issue Paper on DuPont Spin-Off of Chemours

Joan – for WPD’s contributions to this briefing, please use Karen Johnson, Branch Chief of the Ground Water Branch for PFOA issues at Washington Works WV, and Brian Trulear for NPDES permitting and enforcement matters related to Dupont Edgemoor facility in DE.

Thanks

Thanks. It seems that we will have multiple divisions with information. I would suggest that each you provide a contact to Joan Armstrong and they can work on preparing the materials and presentation for the briefing.

Thanks. Cecil.

Cecil – thanks for the notice and yes, please include WPD in the invite. Here is a specific connection in WPD:

PFOA matters at the Washington Works, WV site that we have been managing for close to 15 years. Karen Johnson is contact.

Ex. 5 Deliberative Process (DP)

WPD Involvement - our continued implementation of the 2009 Emergency order a Washington Works, and any new Order once we have any revisions to the PFOA values form HQ. Andrew Harten will remain our contact. Andrew is associated with the Chemours spin -off and discussed the corporate changes with us a couple months ago and indicated he was going to Chemours for continued PFOA contacts.

Subject: Issue Paper on DuPont Spin-Off of Chemours

Hi Shawn & Bill. Attached, please find an issue paper discussing DuPont's recent spin-off of The Chemours Company and an analysis of the potential impacts of the spin-off on the universe of Region III CERCLA sites performed by HSCD in collaboration with ORC. Carlyn Prisk, of HSCD's Cost Recovery Branch and the primary author of the paper, is on

Ex. 6 Personal Privacy (PP)

Ex. 6 Personal Privacy (PP)

In the meantime, please feel free to contact Joan Armstrong if you have any questions regarding the paper. Thank you.

Joanne
